

Calliden flood embargo lifted

Calliden has now lifted its flood embargo on Calliden domestic insurance. Please see all postcodes to remain embargoed [here](#) (please note this include ALL decline postcodes including those not strictly related to flood).

These postcodes will remain embargoed on Calliden domestic insurance for the foreseeable future until Calliden is able to adequately assess the flood exposure in these areas. Calliden has been reviewing its flood strategy and will be advising brokers of its approach in the coming weeks.

(Please note that this approach only relates to Calliden Domestic policies and does not include domestic cover provided under other parts of the Calliden Group including Mansions, QUS and ARGIS Farm.

For Mansions we still have a temporary embargo in place for new business in all flood affected areas but are still accepting risks in non affected areas including risks located in non affected areas of QLD.

Note that flood cover is not provided under QUS, or any section of the ARGIS Farm policy other than comprehensive motor, and consequently no embargo was placed on these covers.)
